

AIM BATT

WE ARE THE BEST-IN-AUTOMOTIVE, INVERTER
AND SOLAR BATTERIES

INTRODUCTION

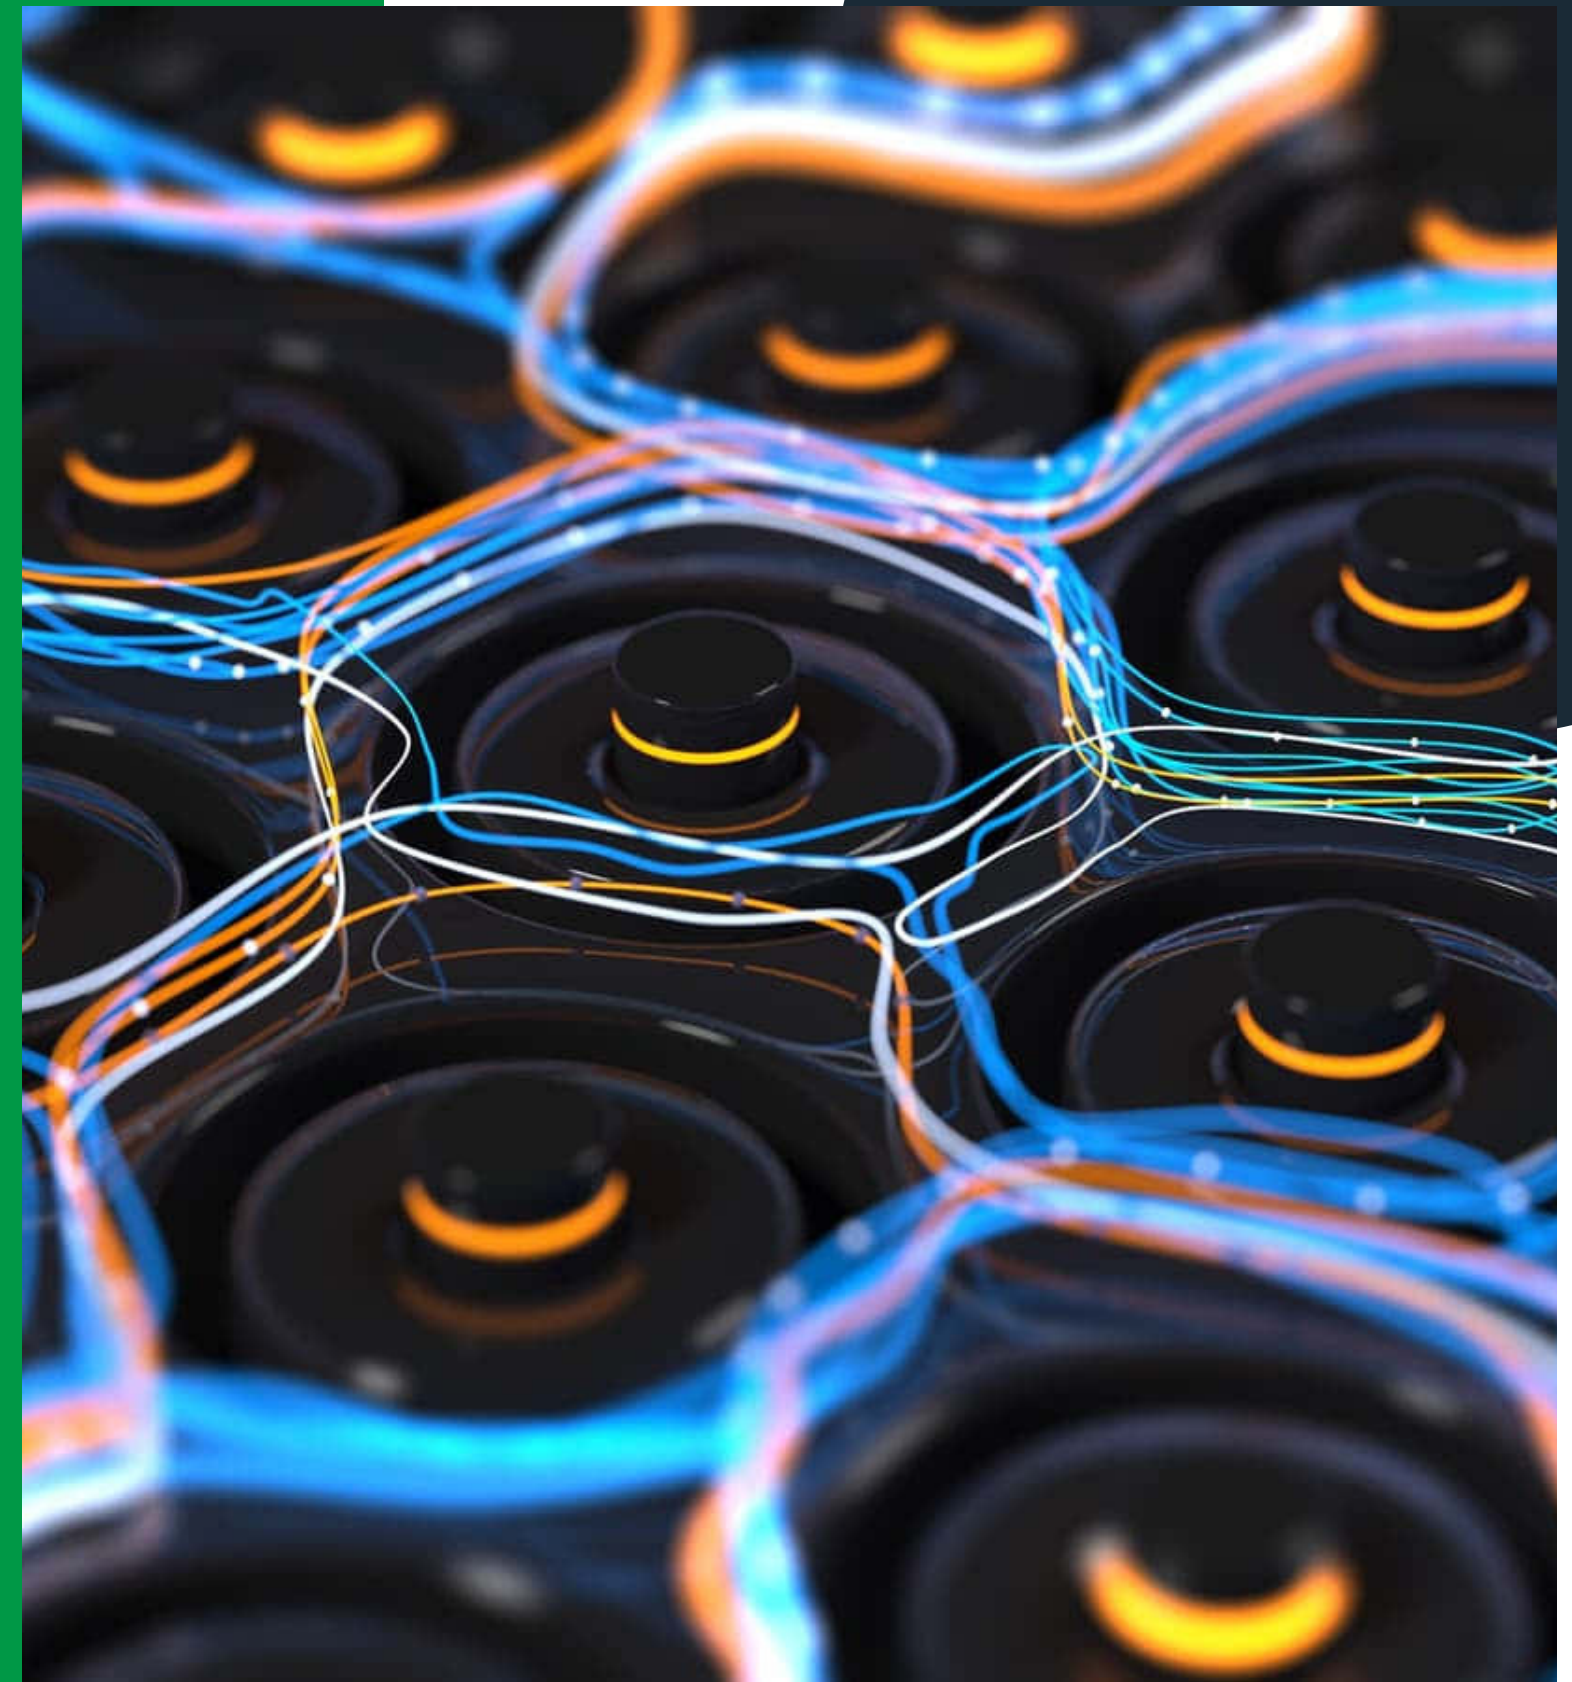

**7+ YEARS EXPERIENCE IN
BATTERY INDUSTRY**

- **100% Lead Acid as best for power back up needs.**

- **Solar Batteries are 100%**

MAKE IN INDIA

- **The batteries produced are environmentally friendly.**

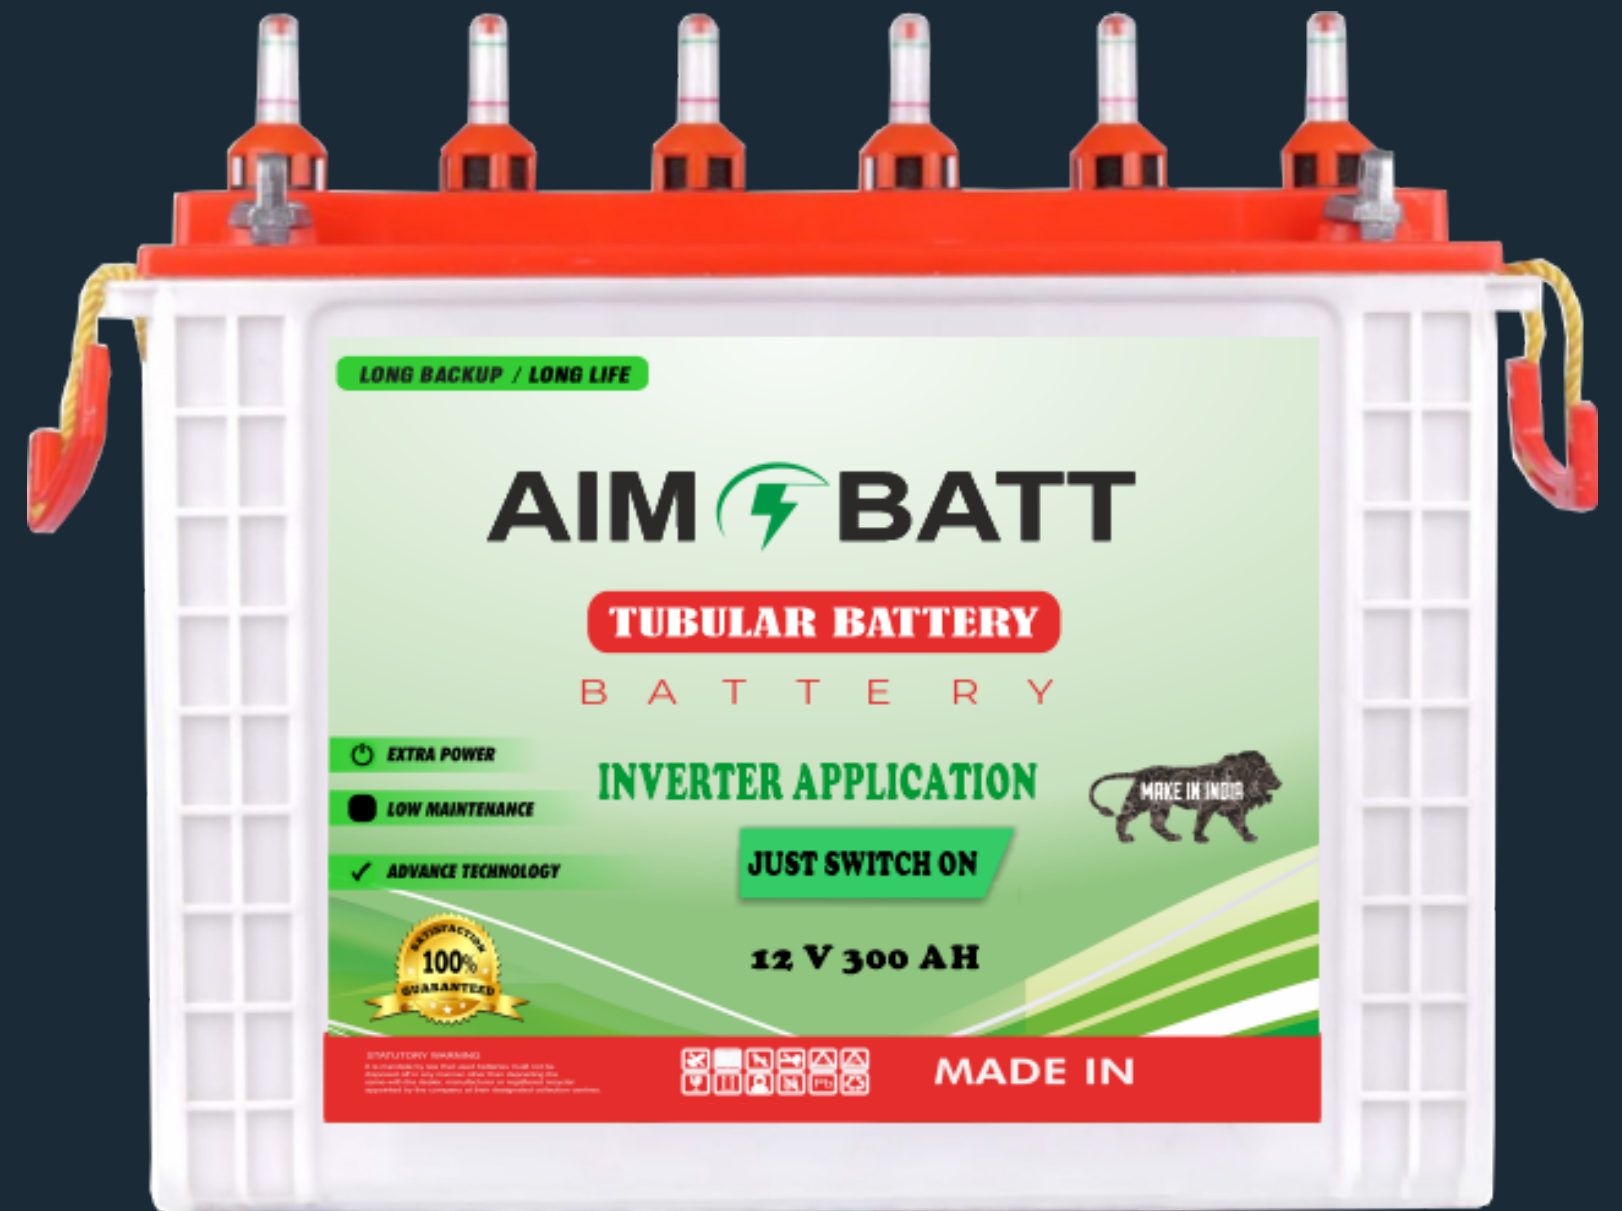

ABOUT US

Under the direction of Rushabh Doshi, AIMBATT POWER SOLUTIONS, a well-known producer and exporter of lead acid batteries, commenced operations in 2015. We've moved from the market's racetrack to its pinnacle thanks to his zealous desire to become the industry's pioneer. We are happy to be at the top, where customers will continue to pick us.

TALL TUBULAR BATTERIES

Application

This battery is applicable for inverter and solar. Heat-sealed range of tubular stationary batteries and Inverter batteries of future-generation batteries with almost maintenance-free characteristics.

**RAILWAY
SIGNALING**

SOLAR

**TELE-
COMMUNICATION**

STATIONS**

SOLAR TUBULAR

- Batteries are Designed with a Focus on Environmental Sustainability.

- Consistent and Low Maintenance Power for Renewable Energy Requirements.

- Deep Cycle Applications and Minimum Maintenance in Rural and Power-deficit Areas.

INFRASTRUCTURE

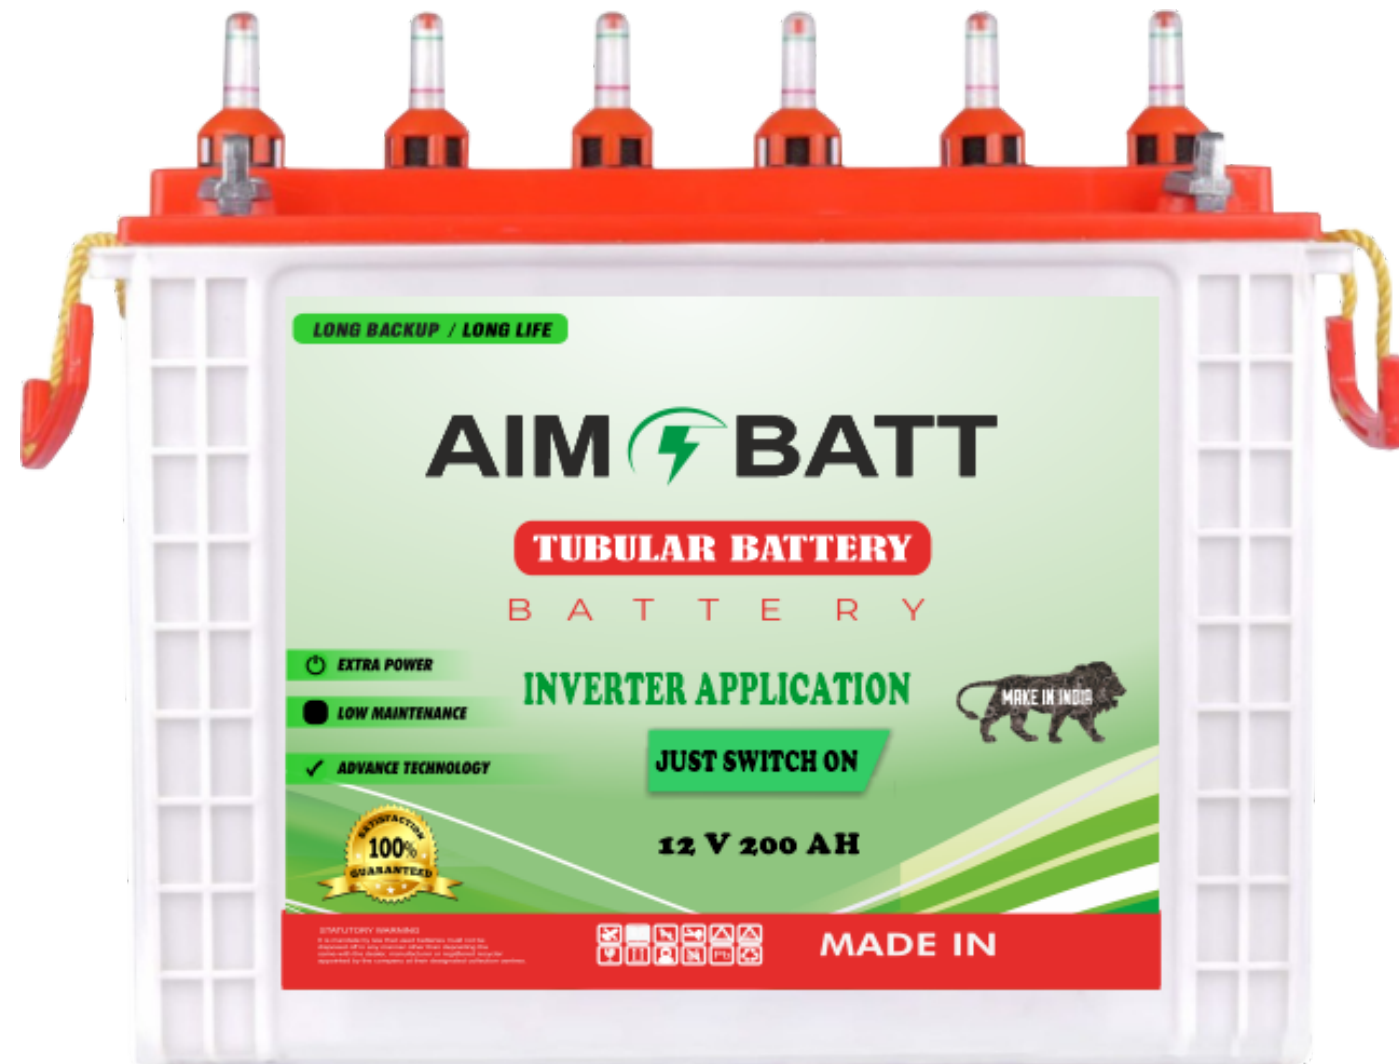

- *Imported Pressure Dye Casting Machines*
- *Imported Grid Casting Machines*
- *Imported Fully Automatic Pasting Machine With Drying Oven*
- *Automatic Curing Chambers.*
- *Microprocessor Control Based Plate Formation Rectifier.*
- *Advance Technology Fully Automatic Battery Charging.*

KEY POINTS

- **ULTRA LOW MAINTAINANCE**
- **SUITABLE FOR DEEP DISCHARGE**
- **SUITABLE FOR LONG POWER OUTAGES.**
- **RECOMMENDED FOR ANY CLIMATES.**
- **MORE ELECTROLYTE PER AMPERE HOUR.**
- **LONG LIFE - 1200 CYCLES* @ 80% DOD.**
- **MASTER RANGE - AIMBATT INVERTER BATTERY.**
- **SUPERIOR PERFORMANCE AND HIGH RELIABILITY.**
- **FACTORY CHARGED BATTERY WITH HIGH CURRENT.**
- **MADE OF TIME TESTED EVERY AIMBATT TUBULAR BATTERIES.**
- **TOUGH BATTERY FOR TOUGH CONDITION WITH THICKER PLATES.**
- **SUITED FOR REGULAR DEEP CYCLIC DUTY - SUPERIOR CYCLE LIFE.**

FEATURES

OUR THOROUGH SERVICES HAVE WON THE AMAZEMENT AND LOYALTY FROM THE CLIENTS OVER THE YEARS

- Designed for Long Life.
- More Electrolyte per Ampere Hour.
- Low Maintenance.
- Factory charged and ready to use condition.
- Easy to monitor state of charge.

1

Competent team of Professionals

2

Excellent service support after Sale

3

Experience of working with diverse clientel

CUSTOMER SATISFACTION

Nearly 10Lakh+ Customers

4

Strong dealers & Distributors network

5

Versatile products

6

Expertise gained through R&D

QUICK TIPS

MAINTENANCE

- *Do not expose the battery to direct sunlight.*
- *Keep the battery away from heat, in a dry, cool, and ventilated space.*
- *Keep the battery out of the reach of children.*
- *Keep checking the float indicators in the battery time to time, add water top-up when required.*
- *Do not fill acid into the battery.*

HANDLING

- *Do not keep the battery water indicators open.*
- *Always get the service done by authorized service personnel only and never by a local technician.*
- *Always return non-functional OLD inverter batteries to any authorized distributor for recycling.*
- *Be a responsible citizen. never discard the non-functional batteries into dustbins, roads.*
